Self inflating mattresses are easy to cram in the luggage, and make a big difference! That extra barrier between the ground not only keeps you comfier, but also warmer!

Having some spare kitchen or toilet roll around is always a great idea. Spills inside the tent or spills on you! Sticky fingers because you ate a burger like a beast. **STICKY FINGIES, NOTHING WORSE.**

Get creative! You can decorate your tent space. We allow flags, lights and decor. If you wanna jazz up your space, you are welcome to!

When choosing your snacks, remember your tent may get hot! So chocolate bars may become chocolate frube tubes! If you need hot water, let us know!

Waste bags are great for collecting bits n bobs for the bin later! And, for separating dirty clothes from clean clothes!
